Combine Images

Complete the following Pyret expression to produce this final image:

```
overlay(1
    __________("123 Fake Street", 45, "white"),
overlay(3
    overlay(4
        overlay(5
            __________(300, 100, "solid", "forest-green"),
            __________(310, 110, "solid", "white")),
            __________(312, 112, "outline", "black"_________

Look closely at your closing parentheses: how many do you need? Mark each parenthesis you added with the number of the opening parenthesis to which it corresponds.
